**SECTION 22 05 18**  
**PLUMBING ESCUTCHEONS FOR PIPING**

**PART 1 GENERAL**

**1.1 SECTION INCLUDES**

- A. Escutcheons.
- B. Floor plates.

**1.2 RELATED REQUIREMENTS**

- A. Section 22 00 00 - Plumbing Common Work Results

**PART 2 PRODUCTS**

**2.1 ESCUTCHEONS**

- A. One-Piece, Cast-Brass Type: With polished, chrome-plated and setscrew fastener.
- B. One-Piece, Stamped-Steel Type: With chrome-plated finish and spring-clip fasteners.
- C. Split-Casting Brass Type: With polished, chrome-plated and rough-brass finish and with concealed hinge and setscrew.
- D. Split-Plate, Stamped-Steel Type: With chrome-plated finish, concealed and exposed-rivet hinge, and spring-clip fasteners.

**2.2 FLOOR PLATES**

- A. One-Piece Floor Plates: Cast-iron flange with holes for fasteners.
- B. Split-Casting Floor Plates: Cast brass with concealed hinge.

**PART 3 EXECUTION**

**3.1 INSTALLATION**

- A. Install escutcheons for piping penetrations of walls, ceilings, and finished floors according to the following:
  - 1. Furnish one-piece escutcheons for piping installed during the course of this work.
  - 2. Furnish split casting escutcheons for existing piping.
- B. Install escutcheons with ID to closely fit around pipe, tube, and insulation of piping and with OD that completely covers opening. Exposed escutcheons shall be chrome plated.
- C. Install floor plates for exposed floor piping penetrations.
  - 1. Furnish one-piece floor plates for piping installed during the course of this work.
  - 2. Furnish split casting floor plates for existing piping.
- D. Install floor plates with ID to closely fit around pipe, tube, and insulation of piping and with OD that completely covers opening.
- E. Replace broken and damaged escutcheons and floor plates using new materials.
